EDUCATION

Graphic Era University

Bachelor of Technology in Computer Science

Dehradun, India

Aug 2023 – Present

St. Jude's School

Class XII (PCM)

Dehradun, India

May 2023

EXPERIENCE

Tsole Technologies

Apr 2026 – Jun 2026

AI Engineer Intern

Remote

- Engineered multi-agent state machines using **LangGraph** and **LangChain** with Mistral AI/Groq LLMs, incorporating fallback mechanics that reduced decision latency by **42%**.
- Architected production-grade RAG pipelines utilizing **ChromaDB**, hybrid search (BM25 + dense vectors), and semantic chunking, achieving **94% retrieval accuracy** on evaluation benchmarks.
- Deployed **12+ high-throughput FastAPI microservices** with automated retry loops and PostgreSQL persistence, handling **1,500+ daily active requests** with **99.8% uptime**.
- Implemented dynamic prompt caching and structured outputs using Pydantic, slashing API token cost by **35%** across high-frequency execution pipelines.

PROJECTS

Kavach – AI Scam Detector for Indian Cyber Fraud | *Next.js, FastAPI, LangGraph, Supabase, Groq, NumPy*

- Engineered a multi-signal risk analysis engine utilizing **LangGraph** and custom TF-IDF/Logistic Regression classifiers running in pure NumPy, achieving **97.3% precision** and **93.5% recall** on held-out smishing benchmarks.
- Integrated automated URL expansion (5-hop SSRF protection), RDAP domain age checks, and UPI payload analysis to detect fake KYC, e-challan, and collect-request frauds in real time.
- Designed a dual-llm reasoning tier (Groq gpt-oss) with prompt-injection defenses and bilingual (EN/Devanagari Hindi) response generation, maintaining robust safety checks and zero-width normalization.
- [Live Demo](#) | [Source Code](#)

ApplyAI – Autonomous Job Application AI Agent | *Next.js, FastAPI, LangGraph, ChromaDB, PyTorch*

- Architected an end-to-end agentic workflow to automate resume tailoring and parsing, cutting processing time by **80%** across **500+ benchmarked postings**.
- Implemented cross-encoder re-ranking and Ragas framework for quantitative context relevance scoring, attaining a **92% skill alignment match rate**.
- Integrated custom streaming responses via FastAPI Server-Sent Events (SSE) to generate structured ATS resumes in **under 4 seconds**.
- [Live Demo](#) | [Source Code](#)

Football Scouting & Player Similarity System | *Python, Scikit-learn, Pandas, Streamlit, Matplotlib*

- Engineered a data-driven recruitment system applying **K-Means clustering** to multi-attribute performance metrics, enabling high-accuracy similarity discovery for scouting analytics.
- Built interactive radar charts and profile visualizers in **Streamlit** to map player metrics across goals, passing, and dribbling.
- [Live Demo](#) | [Source Code](#)

TECHNICAL SKILLS

AI & Agents: LangChain, LangGraph, RAG Pipelines, Multi-Agent Systems, Ragas, Semantic Search, Prompt Engineering

Frameworks & ML: Python, PyTorch, FastAPI, Next.js, React, Node.js, Express.js, Tailwind CSS

Databases & Vectors: ChromaDB, Pinecone, PostgreSQL, Supabase, pgvector, MongoDB, Firebase Firestore

Languages: Python, TypeScript, JavaScript, C++, SQL, HTML/CSS

DevOps & Tools: Git, Docker, Kubernetes, Vercel, Render, Postman, Linux

CERTIFICATIONS & ACHIEVEMENTS

Oracle Certified Foundations Associate | [View Certificate](#)

Jul 2026

Agentic AI Certified Foundations Associate (Credential ID: 103494902AA126OFA) – Oracle University

Competitive Programming: Achieved **Knight Rank (Top 5%)** on LeetCode; solved **350+ DSA problems** across LeetCode, CodeChef, and GFG.
